

Solar Energy - International Conference On Solar Energy, the IV - th edition

Present and Future in the Solar Energy

11 th June 2014, ROMAERO hall, Baneasa, Bucharest, Romania

09.30 Receiving and registrations of the participants

Session I: Energy efficiency in buildings

10.00 TRACE – Transnational cooperation for improving the performance and energy efficiency of buildings
– Grig Moldoveanu, Enero.

10.30 Premises for determining heat energy consumption for the rehabilitation heating of flats
– Carmen Pavel, independent consultant

10.45 Mild Home – Modular intelligent house, low cost, almost zero energy - Nicoleta Ion, Enero

11.00 Panel discussion on improving performance and energy efficiency in buildings, based on the presented materials

11.30 E4 House for Romania - a possible solution for NZEB, prof.dr.eng. Emilia-Cerna Mladin – AAECR chairman

11.45 The gray blocks between renovation and rehabilitation, Maria Temtunic, UPTIM

12.00 Coffee Break & Networking

Session II Legislative issues, storage and energy transport

12.10 Storing renewable energy in isolated renewable systems, Octavian Capatina, Executive Director SC Negoiu

12.30 ANRE - Regulatory Authority for Energy

12.50 Transelectrica

13.10 Heat energy production in plants which are using renewable sources through local authorities and community investments: Pecioly example Italy, Dr. Fiz Dan Ilie Teodoreanu - Vice-president APSNE SUNE; Eng. Manuela Draghicescu - Executive Director, New Energy Industry Association APSNE SUNE

13.30 Questions and Answers

13.40 Coffee Break & Networking & Visiting the Exhibitors

Session III Energy Management

14.20 The use of landfills for the production of solar plants: good practice in Italy, attempts in Romania; Dr. Fiz Dan Ilie Teodoreanu - Vice-president APSNE SUNE; Eng. Manuela Draghicescu - Executive Director, New Energy Industry Association APSNE SUNE

14.40 Romanian Ministry of Environment and Climate Change

15.00 Systems and energy cells with own "DNA", Octavian Capatina, Executive Director SC Negoiu Impex

15.20 Apricus Solar Systems, Mihai Vintila – Apricus

15.40 The newest building materials, a component of the energy efficiency process, Doina Toma, Technical Director APMCR

15.40 TÜV RHEINLAND – acknowledged supplier of inspection services, certification and technical expertise in renewable energy, Eng. Marius Domokos – Products Service Certifications Director within the Industrial Services Department of TÜV Rheinland Romania

16.00 Mobility and vanguardism. The first public solar charger - Strawberry Tree, Nicoleta Iancu, Ceo Smart Sun Solutions Srl-

D

16.20 Coffee Break & Networking

Moderators:

Ion Dogeanu, Executive Director, Agency for Energy Efficiency and Environment Protection Bucharest

Octavian Capatina, Researcher, Executive Director NEGOIU Impex

Manuela Draghicescu - Executive Director, New Energy Industry Association APSNE SUNE

Language: Romanian / English

Date: 11.06.2014

Target group: architects, buildings managers, manufacturers and suppliers of energy, RES developers, investors, financiers, consultants, EPC, experts, researchers, academia, public authorities, political environment, media.

Note: Organizers will not be held responsible for certain changes in the Conferences Programs regarding the speakers, hours and presentations, of unforeseen circumstances or force majeure. Registration is according to availability seats. Personal data is collected and administered according to Law. (R.E.S. Group is personal data operator under number 17252).

Conference Registrations and further details on: press@roenergy.eu
